

Maintenance drugs are medications prescribed to treat chronic, long-term conditions and are taken on a regular, recurring basis. Examples of maintenance drugs are those used to treat high blood pressure, heart disease, asthma, and diabetes. When medically appropriate, maintenance drugs can be filled for up to a 90-day supply.

For the most current listing of covered medications or if you have questions, please visit www.proactrx.com or call the ProAct Help Desk at 1-877-635-9545.
